Protective clothing against infective agents

The D-Lab Bioclean Hooded Protective Coverall is a disposable garment that provides comfort and protection from head to toe. Features protective winged front zipper, elastic hood, back, cuffs and ankles.

Reinforcement strips on the overalls prevent leakage from the seams.

The front closure is provided with a zipper and the zipper fly is fixed to the opposite wing with double - sided tape.

Easy to put on and take off.

Reinforcement strips on the overalls prevent leakage from the seams.

### Hooded Design

Three dimensional hood design with elastic band around the face opening, insures a better fit on the face maximizing the protection effect.

### Security Tape

Thanks to the security tape, any leakage from the zipper area is prevented.

### Elastic Cuff

The cuff uses an internal elastic band to further enhance tightness and protection.
